Important Information about Paying for Your Care at Oswego Hospital

Oswego Hospital is participating provider with many health plan networks. You can find a list of plans in which we participate below (page 2). Some health plans use smaller networks for certain products they offer so it is important to check whether we participate in the specific plan you are covered by. Our list will tell you if we do not participate in all of the health plan’s products.

It is also important for you to know that the physician services you receive in the hospital are not included in the hospital’s charges. Physicians who provide services at the hospital may be independent voluntary physicians or they may be employed by the hospital. Physicians bill for their services separately and may or may not participate in the same health plans as the hospital. You should check with the physician arranging your hospital services to determine which plans that physician participates in. Plan participate information for physicians employed by the hospital can be found below (page 2). Oswego Hospital contracts with a number of physician groups such as radiologists, emergency room physicians, and pathologists, to provide services at the hospital. Contact information for the physicians groups the hospital has contracted with is available below (page 3-4). You should contact these groups directly to find out which health plans they participate in.

You should also check with the physician arranging for your hospital services to determine whether the services of any other physicians will be required for your care. Your physician can provide you with the name, practice name, mailing address and telephone number of any physicians whose services may be needed. Your physician will also be able to tell you whether the services of any physicians employed or contracted by Oswego Hospital are likely to be needed such as anesthesiologists, emergency room physicians, radiologists, and pathologists. You should contact these groups directly to find out what health plans they participate in, their information is attached. Currently the hospitalists, and our anesthesiologists are employed by Oswego Hospital and are participating with the same insurances as the hospital, but you will receive a separate bill for their services. Our full medical staff list is attached for your convenience (page 5-11).

Hospitals are required by law to make available information about their standard charges for the items and services they provide. This information is available or at http://www.oswegohealth.org/media/1117/patient-pricing-ip.pdf and http://www.oswegohealth.org/media/1118/patient-pricing-op.pdf or by contacting our Business Office at 315-326-0010.

If you do not have health insurance, you may be eligible for assistance in paying your hospital bills. Information about financial assistance is available at www.OswegoHealth.org under Financial Services or you may contact our Financial Assistance Office at 315-349-5536.
